Program Student Learning Outcomes

Upon completion of this degree from KSU, students will be able to:

- Demonstrate their ability to plan and implement curriculum, utilize a range of instructional strategies including the effective use of technology, and differentiate instruction to meet the needs of all adolescent learners.
- Demonstrate their understanding of appropriate assessment strategies and their ability to design and implement effective assessment tools to measure student progress.
- Demonstrate their ability to create a positive, student-centered, and academically challenging learning environment where all students feel welcomed and valued.
- Demonstrate professional dispositions and the ability to communicate effectively with all stakeholders.
