Program Student Learning Outcomes

Upon completion of this degree from KSU, students will be able to:

- Design/plan culturally and linguistically relevant instruction for students learning English as an additional language.
- Implement culturally and linguistically relevant instruction for students learning English as an additional language.
- Apply ethical and non-biased principles and values in teaching students learning English as an additional language.
- Analyze concepts, theories, and pedagogies that address language and literacy development for multilingual learners.
- Evaluate and synthesize peer-reviewed research literature in the field of TESOL.
