

Program Information

College:	Radow College of Humanities and Social Sciences
Department:	Geography and Anthropology
Program:	Geography, BA

Program Student Learning Outcomes

Upon completion of this degree from KSU, students will be able to:

- At the end of the program, students will be able to demonstrate knowledge of principles of place and space through the application of geospatial techniques such map reading, coordinate systems, and satellite & aerial photo imagery.
- At the end of the program, students will be able to describe and classify a variety of spatial and environmental research approaches, methods, and techniques utilized in scientific research, resulting in geographic information literacy.
- At the end of the program, students will relate their acquired spatial knowledge and skills in a research project and post-graduation plan.
