**Subject:** May 2019 CAR Update

The Comprehensive Administrative Review (CAR) committee is committed to providing monthly updates on our progress against the key initiatives identified in our Kennesaw State-specific CAR report. The report and KSU projects, which are updated monthly, are listed on the CAR website, accessible here: <http://oie.kennesaw.edu/car/>.

### **This month, we are highlighting residential wi-fi and internet service.**

KSU recently entered into a contract with Apogee Telecom, Inc. (Apogee) to improve wi-fi network service for students in housing on the Kennesaw and Marietta campuses. Apogee will be responsible for the provisioning of internet bandwidth in addition to the installation, operation, and maintenance of network electronics, wireless access points, authentication mechanisms, and maintenance of structured cabling. Apogee will also provide help desk support 24 hours a day, seven days week. University Information Technology Services (UITs) will manage the project.

The completion of this project will provide increased bandwidth to allow for better internet service, including enhanced connectivity for educational and leisure purposes like video streaming and gaming, and bring wi-fi to Marietta campus housing for the first time. The project began in May 2019 and is scheduled to be completed by the start of the Fall 2019 semester.

Please do not hesitate to send comments or questions to [CARupdate@kennesaw.edu](mailto:CARupdate@kennesaw.edu).

Thanks for all you do at KSU!
