

Kennesaw State University Construction & Demolition Waste Diversion Program

Program Summary	<p>Kennesaw State University (KSU) is committed to conserving natural resources and serving as a model for sustainability throughout the region. As part of that commitment, the Division of Facilities Services requires that all contractors bringing a dumpster on campus for construction and renovation projects comply with the following program requirements:</p> <ol style="list-style-type: none"> 1. Make every effort to reduce waste through their project planning and on-campus operations 2. Recycle, salvage, or reuse surplus building materials from the KSU project to the maximum extent possible 3. Submit a mandatory tonnage report documenting project waste generated and the method of disposal
Recycling Facilities – Partial List	<p>KSU has compiled a partial list of local C&D recycling facilities, below, as a resource for contractors. However, contractors and their haulers can select any C&D recycling facilities, even those not appearing on the list below.</p> <ol style="list-style-type: none"> 1. Metro Green – accepts concrete, metals, roofing shingles, shot rock, sheet rock, carpet, plastics, wood, cardboard, brick, drywall/acoustical ceiling tile, other C&D 2. Downey Trees – accepts greenwaste (unwanted plants, and pruning and leaf material; no stumps and no dirt) 3. Cowart – accepts whole trees, logs, limbs, stumps (additional fee), brush, pallets, other wood debris or yard waste, and clean wood chips 4. Lifecycle Building Center – accepts salvaged building components (lumber, cabinetry, doors, wire, select lighting fixtures, intact windows); provides free pick-up eligible material; provides deconstruction services at competitive rates.
Haulers – Partial List	<p>KSU has compiled a partial list of local haulers with expertise in C&D waste diversion. However, contractors can select any haulers, even those not appearing on the list below.</p> <ol style="list-style-type: none"> 1. Raintree Waste 2. Patterson Services, Inc. 3. Alternative Waste Solutions 4. Lifecycle Building Center* (will provide free pick-up for eligible material)
Mandatory tonnages report	<p>The hauler is responsible for submitting a regular tonnages report documenting the amount of C&D waste hauled from the project site as well as the disposal method. The contractor should submit the same report for any surplus material salvaged for re-use on campus.</p> <p>Mandatory C&D waste reporting template: https://facilities.kennesaw.edu/docs/TonnageReport_ConstructionDemolition.xlsx Email the report to your project manager and copy jwils316@kennesaw.edu.</p>
Questions	<p>Contact Jennifer Wilson, Sustainability Coordinator, KSU at jwils316@kennesaw.edu or (470) 578-3921.</p>
