

Shantanu is Managing Partner and Co-Founder of SeedtoB Capital, an early-stage healthcare AI venture fund, where he invests in and mentors emerging AI-driven healthcare companies. The fund's portfolio spans 23 healthcare companies across the U.S. and Europe.

A serial entrepreneur with a deep passion for Artificial Intelligence (AI) and patient wellness, earlier Shantanu served as **CEO and Co-Founder of Jvion** (2011–2018), scaling it into the nation's leading clinical prescriptive AI platform of the past decade. Under his leadership, Jvion became the nation's largest clinical prescriptive AI company – as cited in the 2018 annual reports of KLAS and Blackbook, impacting hospitals and patients nationwide before its nine-figure, all-cash **acquisition by private equity in 2018**.

He holds a Bachelor of Engineering from the Indian Institute of Technology (IIT), India.
