Program Information

College:	College of Computing and Software Engineering
Department:	School of Data Science and Analytics
Program:	Data Science and Analytics, MS

Program Student Learning Outcomes

Upon completion of this degree from KSU, students will be able to:

- Effectively investigate large, raw data sets using statistical software to develop previously unknown insights from various sources.
- Apply foundational and advanced analytical methods and techniques to prepare, analyze, visualize, model, and interpret data for a variety of data science tasks and objectives.
- Effectively interpret and communicate analysis methods and findings to any audience, orally, visually, and in written formats.
