

Course Attribute Dashboard User Roles

Reviewer

- View access only – not actionable
- Can only view based on group assignment
- Typically, faculty/staff with need to know and/or monitoring activity/data integrity

Maintainer (Requester)

- Faculty and/or staff who will request attribute codes be added/removed from course sections
- Configurable
 - Faculty view – either assigned courses only OR
 - Request/maintain for department, subject course and AND with this granularity can also only view assigned courses as well

Approver

- Can approve requested attributes for specific groups IF role is assigned
- Allows access to “courses to approve” for assigned groups
- Campus teams determine who is assigned this role – could be specific faculty, department chairs, assistant/associate deans, etc.
