ARTIFICIAL INTELLIGENCE WEBINAR

HOSTED BY
**THE UNDERGRADUATE
RESEARCH SUBCOMMITTEE**

CHAIR: Dr. Joanne Ardovini
Gordon State College

WHEN
October 18th, 2024 | 11 am

**CLICK BELOW TO
JOIN THE MEETING NOW**

As artificial intelligence becomes increasingly embedded in both our educational systems and the broader world, it is essential for educators to understand its vast potential as well as the ethical concerns surrounding its use. This talk calls for AI literacy at every level of the institution, aiming to equip higher education stakeholders with a deeper understanding of AI while critically examining the ethical dilemmas that accompany its adoption. Attendees will gain insights into Integrating AI tools to enhance learning while also fostering critical thinking and ethical decision-making among students. The session will also address strategies for guiding students in the ethical use of AI, with a focus on preventing academic dishonesty. By the end of this talk, participants will be better prepared to navigate the complexities of AI in educational settings, ensuring it is used as a positive force in both teaching and students' learning.

KEYNOTE SPEAKER **DR. JENNA HARTE**

Dr. Jenna Harte is an Assistant Professor of General Education and First-Year Writing at the University of West Georgia, where her academic interests include

Composition Pedagogy, Conspiracy Theory Rhetoric, and Rhetorical Empathy. Her recent dissertation, *Identifying with Conspiracy Theorists: Uncovering Rhetorical Questions in the QAnon Movement*, explores the complex rhetorical strategies employed in modern conspiracy theories. In her latest composition course, *AI and YOU: Welcoming Our Robot Overlords*, Dr. Harte examines the intersection of AI and human experience, engaging students in thought-provoking discussions on the role of technology in society.
